Giving Shape to Ideas

# YOUR DATA AND ITS CONFIDENTIALITY ARE CRITICAL CONCERNS.

To satisfy these requirements, Konica Minolta provides the industry's most comprehensive suite of standard privacy and security solutions. We provide all the features you need to protect your information together with secure printing, scanning, copying and faxing functions. Our MFPs feature the lockdown protection of bizhub® SECURE Platinum to help you ensure confidentiality and enhance your organization's compliance strategy.

# bizhub SECURE PLATINUM

Advanced network and storage media security functionality to meet the challenges of safeguarding your valuable data.

## Advanced Solutions

- Is your data encrypted or protected by complex passwords?
- Does access to your printer/copier require user authentication?
- Are print/copy functions tracked, so you know who, when and where copies were made?
- Is your email traffic logged and preserved?
- Are printouts and faxes containing confidential information protected from unauthorized personnel?
- Have you extended your network security protocols to your multifunction devices?

To meet your security needs, our bizhub SECURE Platinum solution and IT Services combine to enhance your security, speed your work and help control your costs. We provide assurance in today's ever-changing workplace environment to help you navigate these questions. And succeed.

## Protect and Defend

Lockdown protection for your MFP means safeguarding information and defending your organization from security breaches. Konica Minolta offers your organization the enhanced confidence and compliance of bizhub SECURE Platinum: powerful password and advanced network and data security measures to protect your valuable data. These enhanced security features will be enabled by your Konica Minolta Field Engineer to ensure that your data is more than secure – it's bizhub SECURE. It's just another way that Konica Minolta gives shape to ideas.

## Konica Minolta's bizhub SECURE Platinum provides the following set of features:

- Create a 20-digit secure alphanumeric password to lock down your bizhub storage media
- Encrypt the entire contents of your bizhub storage media for remarkable data security
- Eliminate any trace of data even after it's been deleted with Temporary Data Overwrite (Temporary Data Overwrite conforms to DoD methods)
- Time your bizhub MFP to auto-delete any material located in personal or public User Boxes, System User Boxes, Documents and Folders
- Disable Non-Secured and Unwanted Services, Protocols and Ports at the MFP
- Enable TLS v1.2\* on the MFP (self-signed certificate)
- Enable Network User Authentication
- Enable MFP Audit Logs

\*TLS v1.3 available in June 2021
