EMBRACE THE FUTURE WITH THE NEW CLOUD ENABLED BIZHUB I-SERIES

Meeting the Needs of an Evolving Workplace

As businesses and organizations increasingly rely on cloud technology, Copier Fax Business Technologies is proud to provide the Cloud Enabled bizhub i-Series to meet their ever evolving needs. Experience the solution that embraces the changing workplace dynamics.

Our next-generation multifunctional printers (MFPs) redefine their role in the business environment. They bring people, places and devices together with seamless connectivity and enable dynamic and efficient workflow. By improving communication, boosting productivity, and streamlining processes, our MFPs empower smarter business operations.

The Cloud Enabled bizhub i-SERIES is a range of A3 Color and Monochrome MFPs that offer simplicity, security, and intelligence. These devices are designed for the user, prioritizing intuitive operation and eliminating waiting time. With integrated cloud services that offer the right processes at the right time, the bizhub i-Series provides a reliable and safe environment for your business.

CONNECTING TOMORROW'S OFFICE TODAY WITH:

Intelligent Similicity

The intelligently simple i-Series features a large touchscreen panel, a smartphone-style interface, and customizable display options. Users can personalize functions to match their work style, streamlining office routines and boosting team productivity.

Next-Generation Security

The next-gen bizhub i-Series ensures GDPR and ISO 15408 compliance for top-notch security. Tailored bizhub SECURE services and optional Bitdefender® software protect your data and offer peace of mind.

Enhanced Efficiency and Productivity

The i-Series ensures maximum productivity with its fast quad-core CPU, user-friendly interface, and intelligent features. Optional enhancements further streamline tasks. Boost efficiency, save time, and achieve seamless workflow with the i-Series.

ScanTrip Cloud

ScanTrip Cloud simplifies document capture and routing, supporting email and cloud storage. Its intuitive interface and popular connectors simplify operations, enhancing convenience and efficiency.

MarketPlace Cloud App

The accompanying MarketPlace app facilitates work, saves time, and boosts productivity. Customize your device, enhance efficiency, streamline routines, and foster team productivity.

THE EVOLUTION OF TECHNOLOGY

How CFBT Uses AI to Stay Ahead

Technology has come a long way, and the rapid advancements we witness today are transforming the world as we know it. Artificial intelligence (AI) is at the forefront of this evolution, revolutionizing industries and reshaping the workplace. CFBT has been a pioneer in utilizing innovative devices such as the Receptionist for iPad, ALICE Receptionist, and Teem. These devices not only streamline operations but also empower workers to focus on more important tasks, such as customer service, by automating mundane processes.

Receptionist for iPad

This versatile visitor management system is designed to simplify check-ins, track visitors, and enhance workplace safety. It offers efficient visitor management, digital visitor tracking, real-time notifications, delivery processing, and photo capture with document storage. Fully customizable and user-friendly, it helps companies create a great first impression, improve visitor management, and adapt to the demands of the Workplace of the Future.

ALICE Receptionist

ALICE Receptionist is a cutting-edge virtual visitor management system that revolutionizes visitor interactions. Using live video technology, ALICE directly connects guests with employees, providing a seamless and personalized experience. ALICE offers flexibility with operator modes, enhancing customer service and ensuring a consistent and professional first impression. ALICE optimizes security by notifying designated operators regardless of their location. With its innovative features, businesses can better facilitate visitors, save resources, and leave a lasting positive impact.

Teem

Teem is a versatile app that goes beyond conference room digital signage, transforming how staff use office spaces. The app allows users to find available rooms, book spaces, and improve collaboration. Teem also provides valuable insights into meeting and space utilization patterns, helping institutions make informed decisions about resource allocation and cost optimization. With user-friendly features and robust security measures, Teem is the secret weapon for creating a more effective and efficient work environment.

CFBT embraces cutting-edge technology not to replace employees but to empower the workforce and elevate customer service. Stay at the forefront of the technology curve by harnessing AI's power to boost productivity and enhance operations. This proactive method enables CFBT to deliver exceptional customer experiences while fostering an efficient and successful business environment.

REVOLUTIONIZING FIRE PREVENTION AND EARLY RESPONSE

FORXAI Safety Solution for Smoke Detection is an innovative product that swiftly detects early fire signs. AI-powered for quick detection, increased productivity, and peace of mind. FORXAI Imaging AI enables contactless and efficient operations for ensuring greater safety and assurance.

Benefits of FORXAI Safety Solution

- Early Fire Detection
- Quick Response
- Easy Integration
- Increased Safety and Reliability
- Labor-Saving and Contactless Operations

MEET SCOTT RENTZ, DOCUMENT SOLUTIONS SPECIALIST

Scott Rentz, Document Solutions Specialist

CFBT is delighted to announce hiring Scott Rentz as a Document Solutions Specialist. With a Bachelor of Science degree in Psychology from the University of Buffalo and experience as the Head Distiller and a sales representative at a local vodka distillery, Scott brings a diverse skill set to his new role. He is excited about the opportunity to delve into the technology industry and expand his knowledge in this field.

Outside work, Scott enjoys golfing during warmer seasons and skiing when the weather turns cold. Being a North Buffalo native and resident, he is a passionate fan of the Buffalo Bills and the Buffalo Sabres.

Scott is eager to apply his strengths and contribute to the productivity of CFBT while ensuring that clients receive the best service possible. We welcome Scott to the team and wish him great success in his new position as a Document Solutions Specialist at Copier Fax Business Technologies.
